

Brivis Touch™

Create total home comfort with a touch

The Brivis Touch™ is the latest innovation in climate control, allowing you to create total home comfort with *pure simplicity*.

The ability to control your Brivis Ducted Gas Heater, Evaporative Cooler and Dual Comfort system is at your fingertips with the sleek Brivis Touch™, high-resolution colour touchscreen controller. It's that simple.

The culmination of many years of development, the Brivis Touch™ combines the best engineering and technology into one interface. Taking the smarts from previous generation Brivis controllers, we've eliminated the complexities of conventional programmable controllers, without compromising on features and functionality.

Brivis Touch™

Features

Simplicity at its best

With no more frustration, you can simply use all features of your Brivis heating and cooling systems to their full capability, because the Brivis Touch™ is so easy to use.

7 day Programmability

A fully programmable timer with weekday and weekend energy-saving schedules, enabling you to pre-set the temperature to suit your lifestyle.

Manual Mode

Enabling you to control temperature settings in just a touch with simple on / off and temperature up / down functionality.

Security Control

Simply select a PIN and prevent unauthorised usage.

Zone Control

The Brivis Touch™ easily facilitates optional on-board zoning functionality.

Zone Customisation

Modify the name for each zone e.g. "Living room" (when zones are enabled).

Notifications

The Brivis Touch™ monitors usage and alerts you when it's time to maintain your appliances. This simple, clever and handy feature prompts regular services, which ensures optimum performance and prolonged life of your Brivis appliances.

Status Monitor

The Brivis Touch™ constantly monitors every aspect of your appliance's performance. With on-board diagnostics, you are notified in the event of any service requirements.

Specifications

Controller Dimensions			
Width (mm)	Height (mm)	Depth (mm)	Screen (mm)
161	110	23	127

Zoning

A Brivis zoning system provides you with the flexibility to cool or heat up to four independent zones. A zone can be a single room, like a lounge room or a designated set of rooms, like children's bedrooms.

A Brivis zoning system can detect how many zones you are currently operating and automatically adjust its output to match the requirement. This means that if you only want certain parts of your home heated or cooled, you can, while not wasting energy. The zoning system is an additional option to consider when purchasing your Brivis heating or cooling system.

The Brivis Touch™ controller allows you to control all zones with ease and simplicity. The intuitive user interface makes it a breeze to select and set the desired zones you wish to run.

The Brivis Touch™ is also fully compatible with the Brivis ZonePlus™ system, which provides independent time and temperature control of up to four zones (not applicable to evaporative cooling).

Compatibility

The Brivis Touch™ is backwards compatible with a range of existing Brivis controllers and home comfort systems.

Consult your Brivis dealer for more information on compatibility.
